### **THESES**

Synaptic transmission in the lateral geniculate body of the cat.  
Bachelor of Science (Medical), University of Sydney, 1953.

The representation of splanchnic afferents in the thalamus of the cat and baboons.  
Doctor of Philosophy, University of Oxford, 1956.

Pathophysiology of peripheral and autonomic nerve disease.  
Doctor of Science, University of Sydney, 1997.

Multiple Sclerosis in Australia.  
Doctor of Medicine, University of Sydney, 2008.
